COVER LETTER:

I have a lot of emotional intelligence. Master and team work, flexible, hardworking, in accordance with the organizational chart and group. A fully technical and technical person, professional assembler in the field of elements, units and welding processes. .

I participated in the construction of giant structures, including oil platforms, shipbuilding and submarines, which included the construction, loading, transfer to the Persian Gulf installation and installation facility (Persian gulf). I played a major role in landing and dredging of the pier and piles in harbors. In the floating operation of the ship, I am skilled in sinking lagoons (salvej).
